

STUD; Dispelling The Myths: Dispelling The Myths

Conceived in the summer of 2003 and born December 2008, award-winning author, journalist, photographer and independent publisher Azaan Kamau, releases, *STUD: Dispelling the Myths*, on the eve of a major political shift in the United States of America; California gay marriage opponents to overturn a landmark court decision! The groundbreaking, *STUD, Dispelling The Myths*, takes a philosophical walk through the life of a masculine-identified woman from a sociological, anthropological, and spiritual view point. *STUD* features guest commentary, images and interviews from some of Americas most prolific poets, writers, lyricists and performers such as DJ Nova Jade, Damnyo and Quandt Jackson of Afrikan Visions. *STUD* also includes a rare interview with butch icon, *LEGEND-The Original Gender Bender*. *STUD* is jam-packed with historical pictures, humorous antidotes and truths about life lived as a female with a masculine exterior/interior and the writers own spiritual insights. Writer Azaan Kamau speaks about the experiences that led her to pen *STUD*, Stud is a term that identifies a lesbian woman whose inner being and outer persona magnifies what society sees as masculine. In the early days of the LGBTQ movement, women like me were called tomboy, stud, butch, bulldyke, bulldagger and other terms. Many such women had to endure a life filled with judgment and pain simply because of how they looked. I am among those who endured these struggles, however, my experiences ultimately brought me to my own healing, triumph and victory and the birth of *STUD*! Says Azaan. The writer promises that whatever ones ethnic background or cultural identity, they will find some part of themselves in *STUD*. *STUD* is penned in a fashion that will make readers laugh, feel more empowered and find a stronger sense of

personal and spiritual awareness. Living in a society where how one looks often determines ones overall quality of life can make some folks feel invisible and silenced. This book gives a voice to the sometimes voiceless women who dont exactly fit with societys image of what a woman is supposed to look like. STUD takes you into the world of masculine identified lesbians and other women who defy their gender identity, and the difficult but wonderful lives they lead.
