

Congressional serial set Volume 1914

This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1880 Excerpt: ...amounts to \$12,800,000, issued by the national and Ionian banks, while the reserve of specie held by these banks amounts to \$4,500,000. There is no mint in Greece, and its minor and subsidiary coins are supplied by the other states of the Latin Union. The paper circulation of Italy amounts to \$135,000,000, while the specie reserve in banks is only \$17,000,000. Austria.--The dispatches received from Minister Kasson are of great value, as they show that efforts are being made by this empire to return to a specie basis and maintain the integrity of its paper circulation, while preserving, as far as possible, a coinage and circulation of gold and silver. The coinage during the year amounted to \$2,600,563 of gold, and \$13,906,258 of silver. The paper circulation was \$322,938,854. During the year the mines of Austro-Hungary produced 543 ounces of gold, and 935,243J ounces of silver. Russia.--The information received through the Legation of the United States at St. Petersburg shows that the authorized paper circulation of the Bank of Russia and its branches amounted in January last to \$587,907,502, which has not materially changed to the present time. The specie reserve held by the banks amounted on the 12th of June last to \$110,500,000, all of which, with the exception of about three millions of dollars, was in gold. There are no official data in relation to the amount of gold and silver in circulation. There was produced from the mines of RuBsia in 1877: gold, 2,515 poods; silver, 1,202 poods; total, 3,717 poods; equal in weight to about 134,225 United States pounds. Austria, Russia, Italy, and Greece, although their banks hold considerable specie, use for

circulation depreciated bank-notes, and to resume specie payment would require large increase of gold or si...
